

LEVITON  [®]

**COMPREHENSIVE SOLUTIONS.
SMART CHOICES.**

THE FUTURE IS ON.®

Our industry is full of smart people and great products. At Leviton, we define smart differently. Smart is about ingenuity – applied to how we create sustainable solutions in wiring devices, lighting controls, and network infrastructure. Smart is about progress – as evidenced by our unrivaled product and patent portfolio. Smart professionals choose Leviton because our products – from switches and receptacles to daylight harvesting controls to intricate network systems – provide smart, reliable solutions that pay off in time, energy, and cost savings. We are committed to powering progress and improving the way we live, one building at a time.

At Leviton, the future is on.

WHERE WE ARE HEADING

We see significant opportunity in the future of the industry, focusing on faster connectivity and smart solutions for energy and lighting management.

Today, the market demands products that offer greater functionality and built-in intelligence, and support sustainability. Smart buildings - whether homes or offices, hospitals or theaters - require innovative power, data, and wireless solutions while consuming less energy and taking less time to install and maintain.

Leviton's heritage points the way forward to meet these needs. Just as we have since our founding, we bring continuous innovation to our industry.

We began with one item, gas mantle tips, and now we manufacture more than two million parts per day worldwide that are assembled into our portfolio of more than 25,000 products. We established our business in the US over 100 years ago. Today, Leviton is present in over 80 countries. We are committed to developing solutions that help our customers work faster, smarter, and more efficiently, as proven by some of the groundbreaking ideas we've brought to market in recent years:

- Wireless sensors, such as LevNet RF™, that draw all the power they need from the human touch
- Daylight harvesting technologies that keep light levels steady, while reducing energy costs
- Custom-configurable products for high-end data centers
- Wiring devices and controls that are easier to install, saving both time and money

Breakthroughs like these define Leviton and chart a course for new advances. And thanks to our investment in global R&D, manufacturing, distribution, human capital, and training, we are well positioned to meet the future needs of a changing marketplace.

Leviton will always be at the forefront of progress, pioneering new technologies and smarter solutions to better serve our customers.

- Residential networking systems that make home electronics and appliances smarter and more efficient

COMPREHENSIVE PORTFOLIO, COLLABORATIVE CULTURE

For more than a century, Leviton has led the industry in providing the widest range of product choices for smart professionals.

Leviton is the largest privately-held global provider of electrical wiring devices, data connectivity solutions, and lighting energy management systems.

We established our business by designing and developing efficient, reliable, and convenient ways to deliver and manage electricity. Today, our global capabilities, including data infrastructure systems and energy management solutions, are the foundation for our future growth.

Our success comes from our collaborative, partnership-oriented culture. We're committed to nurturing our strategic relationships, and it shows in our loyal customer base and our long-term business partnerships, as well as in the tenure of our workforce. As a family-run company, we believe in investing in our people and fostering an environment of integrity and respect. These beliefs come through in everything we do.

DID YOU KNOW? Daylight Harvesting requires 35-60+% less energy, using less electricity and saving money

The foundation of our success is our values-oriented approach. These values are instilled in our workforce, reflected in our products, and demonstrated in how we support our customers. They are the bedrock of our relationships with employees, customers, and business partners.

WHAT REALLY MATTERS

Commitment

Leviton is a family-run business, with only three CEOs since our inception in 1906. We believe that success brings a responsibility to our customers, our employees, and our community. Delivering world-class customer service and technical support are not goals: they are part of how we do business. Our HR programs are award-winning, and we encourage our employees to participate in community outreach and volunteer programs.

Trust

Trust is the fundamental basis of any relationship, and we are determined to protect it by honoring our word and delivering on our promises. We earn the trust of our customers, partners, and employees through our actions every day.

Ingenuity

Our product teams strive for continuous improvement. Our patent portfolio, which consistently earns among the highest scores from The Patent Board™ for its industry impact, is evidence of our relentless focus on developing pragmatic solutions.

Quality

Everything bearing the Leviton name meets the highest industry standards. All our facilities are ISO 9000-9001 and Six Sigma certified, and all of our products are either UL listed, CE, CSA, CCC, or NOM certified. Many are RoHS compliant.

Reliability

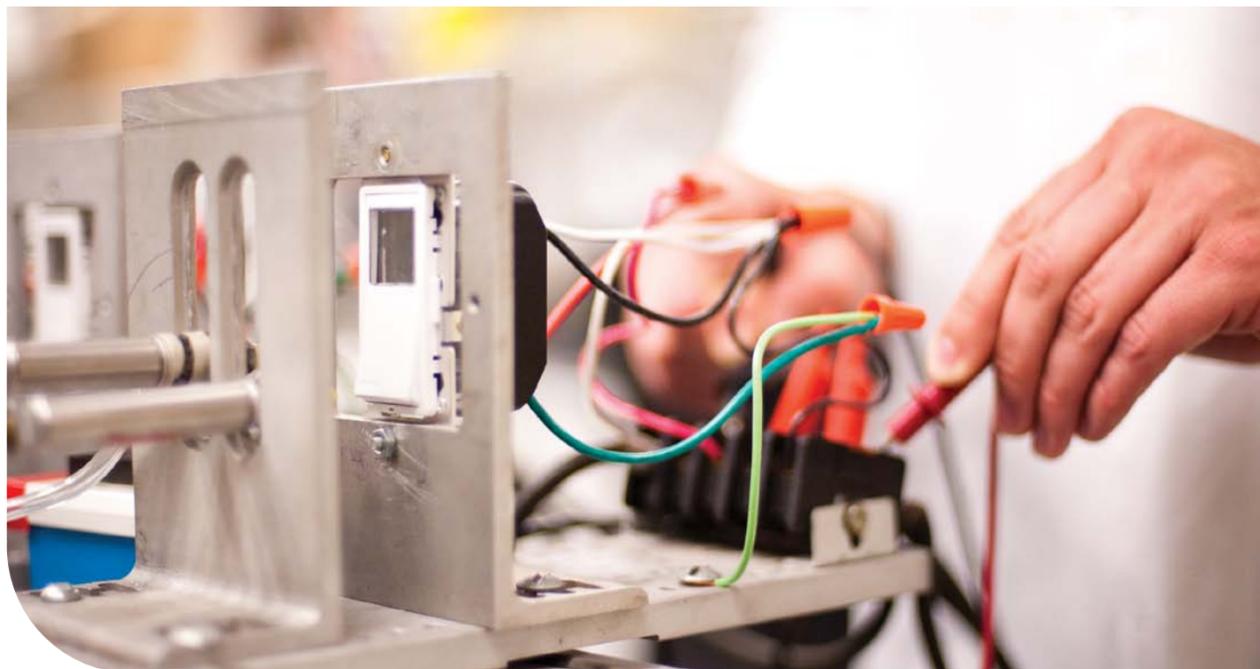

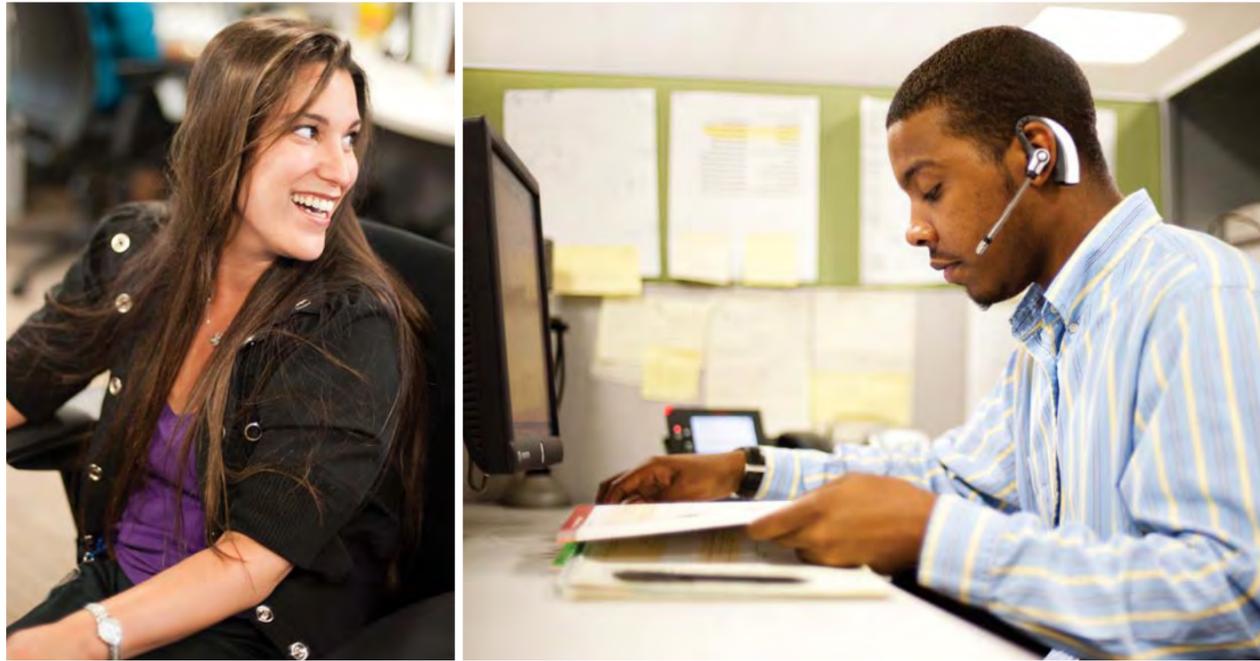

Our reputation for quality is based on the reliability of our products – from basic electrical receptacles to complex networking systems. We partner with leading global companies who count on Leviton to maintain their brand reputations and customer confidence. Our customers depend on us because of the reliability of our word and our uncompromising focus on quality.

Value

Value is the combination of quality, efficacy, and a fair price. At Leviton, it also includes related services, such as our industry-leading online training and education programs. We believe value is more than product features and benefits; it is engagement and learning.

Sustainability

We are committed to creating a sustainable future, and our actions align with our intent. Our energy-efficient products meet or exceed federal, state, and industry standards, and LEED® criteria. Our corporate office received LEED® certification in May 2010, and our “Go-Green” initiative is reducing our carbon footprint across all our facilities.

WHAT WE DO

Inside and outside, from the basement to the roof, from a child's playroom to a processing plant, Leviton products are everywhere.

We're broadly specialized at Leviton, offering a comprehensive range of smart solutions you won't find anywhere else in the industry. The scope of our offerings and the depth of our expertise help professionals and partners realize their plans for smarter networks, buildings, and homes.

Network Solutions

Leviton provides complete copper, fiber, and power solutions for enterprise, data center, and service provider networks that meet and exceed today's data infrastructure requirements.

Connected Home

The Leviton Structured Media System® provides a central network to manage and distribute voice, data, audio, and video signals in residential buildings. It is the technology foundation of the modern home.

Energy Management

Our products save energy, meet code compliance, and often enable our customers to qualify for tax incentives. With advanced system designs and easy installation, it's easier to "Go Green" with Leviton.

Lighting Controls

Combining sophisticated design with state-of-the-art technology, Leviton lighting controls are precise, dependable, and energy-efficient.

Entertainment

From the world's leading theaters and convention centers to home theaters, our customers look to Leviton for the finest, most customizable entertainment experiences. Our solutions bring both sound and video to life.

Home Automation

With Leviton, home lighting and appliance control is an affordable luxury. Designed to maximize comfort, convenience, security, and energy efficiency, our products are stylish and easy to use.

Electrical

Leviton is the preferred brand of professional builders and contractors. Our wiring devices are built with the latest safety innovations and deliver both cost and energy savings.

A VALUE-ADDED APPROACH

From our experience working in industries and markets across the globe, we recognize that customers need more than great products. They need an expert advisor to help create custom solutions that combine the correct mix of products and programs, one who has the capability to provide products, services, and solutions wherever and whenever they are needed.

We are the smart choice for professionals who need a partner with the expertise, breadth of products, and logistics infrastructure to deliver value-added solutions across a range of services and capabilities.

“Leviton is working toward a brighter future, where the intelligent use of electricity results in ecological sustainability and renewal.”

*Donald J. Hendler
President and CEO*

Our Approach

**COMPREHENSIVE PORTFOLIO,
CONSULTATIVE SOLUTIONS.**

1 ESTABLISH DIRECT RELATIONSHIP 

Allows us to better understand your needs and create custom solutions

- Markets: Residential; Commercial & Industrial; Global
- Representative Industries: Hospitality; Healthcare; Education; Information Services; Government; Manufacturing, etc.
- Categories: Electrical; Network Infrastructure; Lighting Management; Building Automation; etc.

2 PACKAGE SOLUTIONS 

Make all our resources available to bring you the best products and the best value

- Products: Wiring devices; lighting systems and controls; data connectivity; energy management
- Services: Design, specification & configuration; installation; customer support
- Programs: Training; education

3 COORDINATE DELIVERY

Utilize local distributors - worldwide - to ensure reliable, timely delivery

- Logistics: Worldwide shipping and tracking
- Access: Worldwide distribution

LIGHTING SOLUTIONS

The most complete line of lighting management products.

From lighting energy management to architectural and entertainment controls, Leviton is the industry's leading provider of lighting control products and solutions.

NETWORK SOLUTIONS

Higher performance and greater solutions flexibility.

Leviton delivers network infrastructure solutions for today's high-speed systems supporting Data Centers, Education and Healthcare facilities, Government, Mixed-Use Towers, and Private Networks.

KEY FACTS

- Broadest package of products and value-added services in the industry
- A full range of products supporting LEED® certification
 - Unique self-powered wireless controls
 - Comprehensive architectural dimming and controls
 - Relay lighting control systems
 - Daylight harvesting
 - Entertainment lighting controls
- Services include engineering layout, applications engineering, and online training and education
- Payback analysis with Dollars and Sensors™ software

MARKET-LEADING PRODUCTS

- **LevNet RF™ Wireless Self-Powered Occupancy Sensors and Lighting Controls (a Leviton innovation)**
- **GreenMAX™ Lighting Management Platform**
- **Renoir II™ Commercial Architectural Dimmers**
- **Dimensions® Architectural Scene Dimming Systems**
- **Sector™ Intelligent Ballast Distributed Lighting Management**

KEY FACTS

- Over 20 years developing innovative solutions for high-speed networks
- A full line of custom-configurable products plus layout and design services for high-end data centers
- Dedicated global service, specification, government, and sales teams
- An exclusive network of Leviton trained and certified contractors
- State-of-the-art in-house testing labs and extensive design/engineering capabilities
- Available lifetime product and performance warranty on qualified installations

MARKET-LEADING PRODUCTS

- **eXtreme® Cat 6 and 6A Systems**
- **Cat 6A (10G) Component-Rated System**
- **Gigamax® 5e system**
- **Opt-X® and Opt-X Ultra® Fiber Enclosures**
- **Secure Keyed LC Fiber System**
- **QuickPort® Panels and Wallplates for maximum flexibility**
- **Data Center Replicator™ Fiber Patching System**

DID YOU KNOW? Our Network Solutions group works with organizations such as GM, Stanford University, the US Postal Service, and Visa

RESIDENTIAL SOLUTIONS

The preferred choice of professional builders and contractors.

Leviton wiring devices, lighting and network controls are helping consumers realize the promise of the Smart Home: intelligent, reliable, and safe.

COMMERCIAL AND INDUSTRIAL SOLUTIONS

Easier installation with the highest level of safety and reliability.

Leviton's comprehensive line of industrial-grade electrical wiring devices is designed to withstand the rigors and safety requirements of commercial and industrial environments.

KEY FACTS

- The market-share leader in wiring devices and GFCIs
- Structured cabling systems provide the foundation for a connected home
- Integrated solutions that deliver a seamless voice, data, and media experience
- Leviton wiring devices are installed in more North American homes than any other brand
- The broadest product offering in the industry

MARKET-LEADING PRODUCTS

Decora®
SmartLockPro®
Vizia+®, IllumaTech™, SureSlide® dimmers
Renu®
Vizia RF+® home automation products
Cheetah™
CFL lampholders and dimmer

KEY FACTS

- Devices designed for industrial operations such as Food Processing Plants, Oil Drilling, Mining, and high-amperage Power Distribution
- Broadest offering of hospital-grade devices in the industry
- Specialized solutions for commercial buildings including hotels, offices, healthcare facilities, convention centers, and schools and universities
- Industry-leading safety technology, including Surge Protection Devices, Mechanically Interlocked Disconnect Switches, and Tamper-Resistant Devices

MARKET-LEADING PRODUCTS

Lev-Lok®
EZE-Rough™
Rhino-Hide™
Wetguard™
Powerswitch™

OUR CHANNELS

Leviton has the industry's largest distribution network and longstanding relationships with our channel partners.

Distribution

We partner with distributors to increase sales and profitability. Leviton has the industry's largest and most knowledgeable sales force, offering the most comprehensive range of products and marketing services to assist clients in making application solution decisions that benefit their businesses.

- Complete sales and training tools, including "Annual Distributor Capabilities" module, a comprehensive annual sales and marketing program
- A single source supplier – creating supply chain efficiencies for customers from all markets
- Industry-recognized and award-winning programs to make business easy and rewarding, such as online education tools and contractor business and market development support

Retail

Leviton offers a comprehensive product and service portfolio that maximizes visibility and promotes brand awareness in retail outlets around the world.

- Marketing support includes assistance with planograms, special promotions, and training
- Our award-winning merchandising and displays are designed specifically to capitalize on the in-store environment
- Bright, bold packaging creates an appealing and easy-to-shop experience for consumers

OEM

Leviton provides OEMs a total value proposition – from traditional devices to state-of-the-art custom solutions with world-class service and fulfillment – that is unmatched among suppliers of electrical devices and lighting components.

- 70% market share in components for lighting fixture manufacturers
- Ability to develop unique devices that satisfy special application requirements
- Focused, longstanding partnerships
- A reputation for excellence, quality, cost efficiency, and a willingness to partner with OEMs
- Industry-leading customer service and ordering capabilities, and world-class order fill rates

E-Business

Leviton's industry-leading website offers EZ-learn self-paced training, robust B2B tools and comprehensive product information. A corporate initiative, with accompanying investment, is building on this foundation to establish a world-class B2B e-business infrastructure.

GLOBAL NETWORK OF PROGRAMS & SUPPORT

The products and support to get the job done. Everywhere.

Over time, we have expanded our business into international markets. Leviton products and solutions are now available in over 80 countries.

We have built engineering, manufacturing, and distribution facilities worldwide to ensure global access to Leviton products and people expertise.

At your service

We deliver world-class customer service through our multi-lingual staff based at our headquarters in Melville, New York, and our representatives in countries worldwide.

Our commitment to delivering unified and consistent service to our customers and partners includes:

Certified Contractor Program:

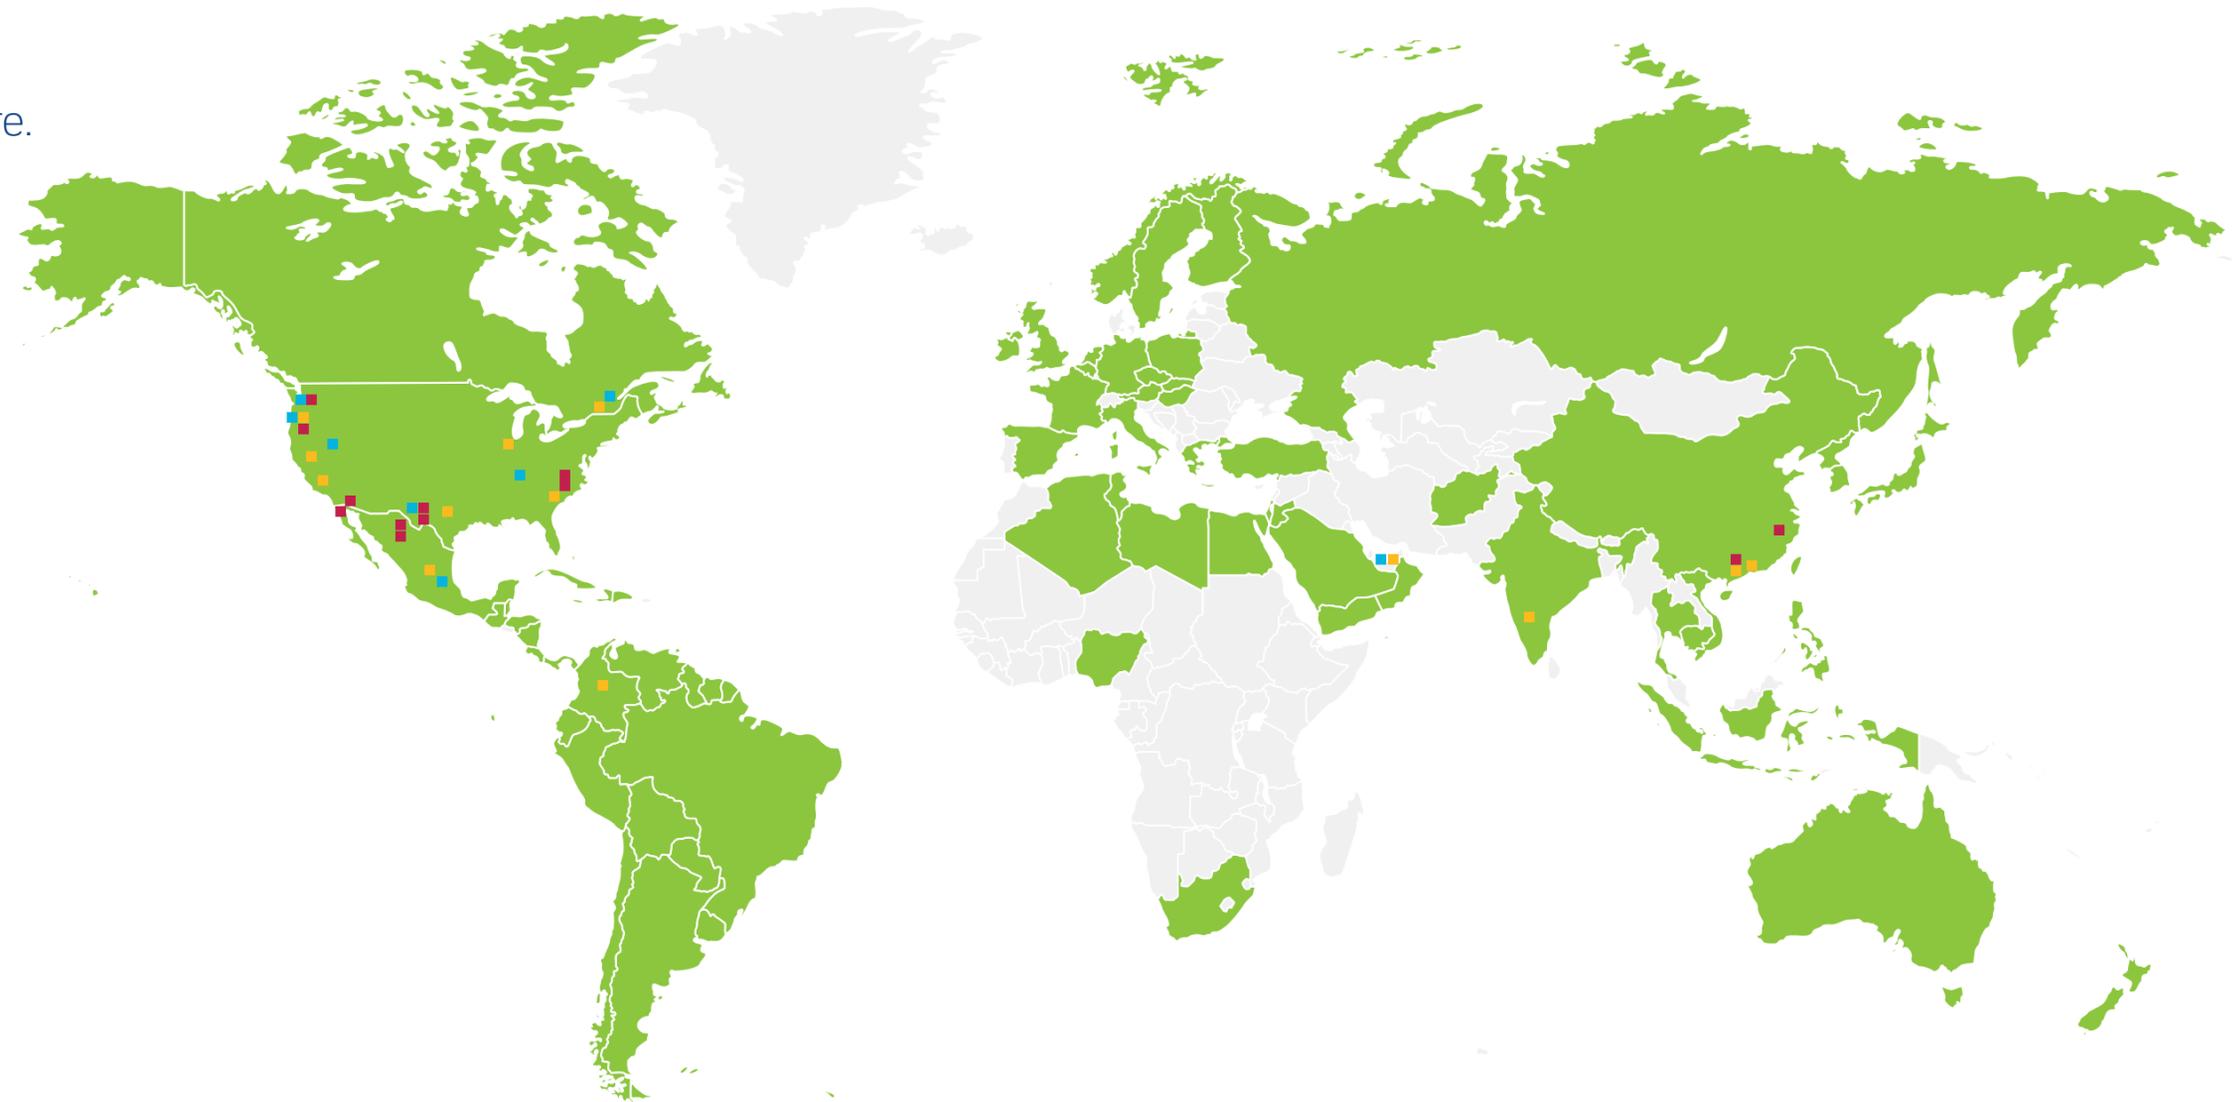

- Regional programs and certified contractors to support local rollouts, projects, and MRO work

Specification Team:

- Combination of local and US-based resources for design and specification assistance
- Global Data Center services based in the US

Technical Support:

- US-based unified support for all markets
- Localized tech support in all regions

13 Sales Offices

12 Manufacturing Plants

8 Distribution Centers

■ Our products are available in more than **80** countries

■ Distributed in over **17,000** locations worldwide

Leviton Global Companies:

- Canada
- China
- Colombia
- India
- Korea
- Mexico
- Middle East

LEVITON AT A GLANCE

- Leviton is the largest privately-held global provider of electrical wiring devices, data center connectivity solutions, and lighting energy management systems
- We've built a portfolio of over 25,000 products and 600 patents
- We manufacture more than 2 million units daily
- We employ nearly 7,000 people
- We operate in over 80 countries
- We provide global sales and technical support
